FRESH SHOP (TUGAS KULIAH).

A woman wearing a straw hat and a black t-shirt is smiling and holding a bunch of dark red grapes in her right hand. She is standing behind a wooden basket filled with various fresh vegetables, including eggplants, green and red bell peppers, and leafy greens. The background is a solid bright green.

ELERANA WEB VERSION

[CLICK TO VIEW WEBSITE](#)

The screenshot shows a dark-themed web page for "ELERANA WEB VERSION". On the left, there's a sidebar with sections for "1. Introduction to Grammar" and "2. Tenses", each with definitions, formulas, and examples. The main area features a large "Welcome to Grammar Learning!" heading and an AI chatbot window. The chatbot, named "ELERANA", greets the user and provides feedback on a sentence. A message input field at the bottom allows users to type their own messages.

This section provides an introduction to grammar, covering the basics of grammar, including tenses, punctuation, and sentence structure here.

1. Introduction to Grammar

Grammar is the set of rules that governs the structure of sentences. This section provides an introduction to grammar, covering the basics of grammar, including tenses, punctuation, and sentence structure here.

2. Tenses

Present Simple: Used for habitual actions or general truths.

Formula: Subject + Base Verb (s/es for plural)

Example: "She writes every day."

Past Simple: Used for actions that were completed in the past.

Formula: Subject + Verb-ed (or irregular past tense)

Example: "He visited Paris last summer."

Future Simple: Used for actions that will happen in the future.

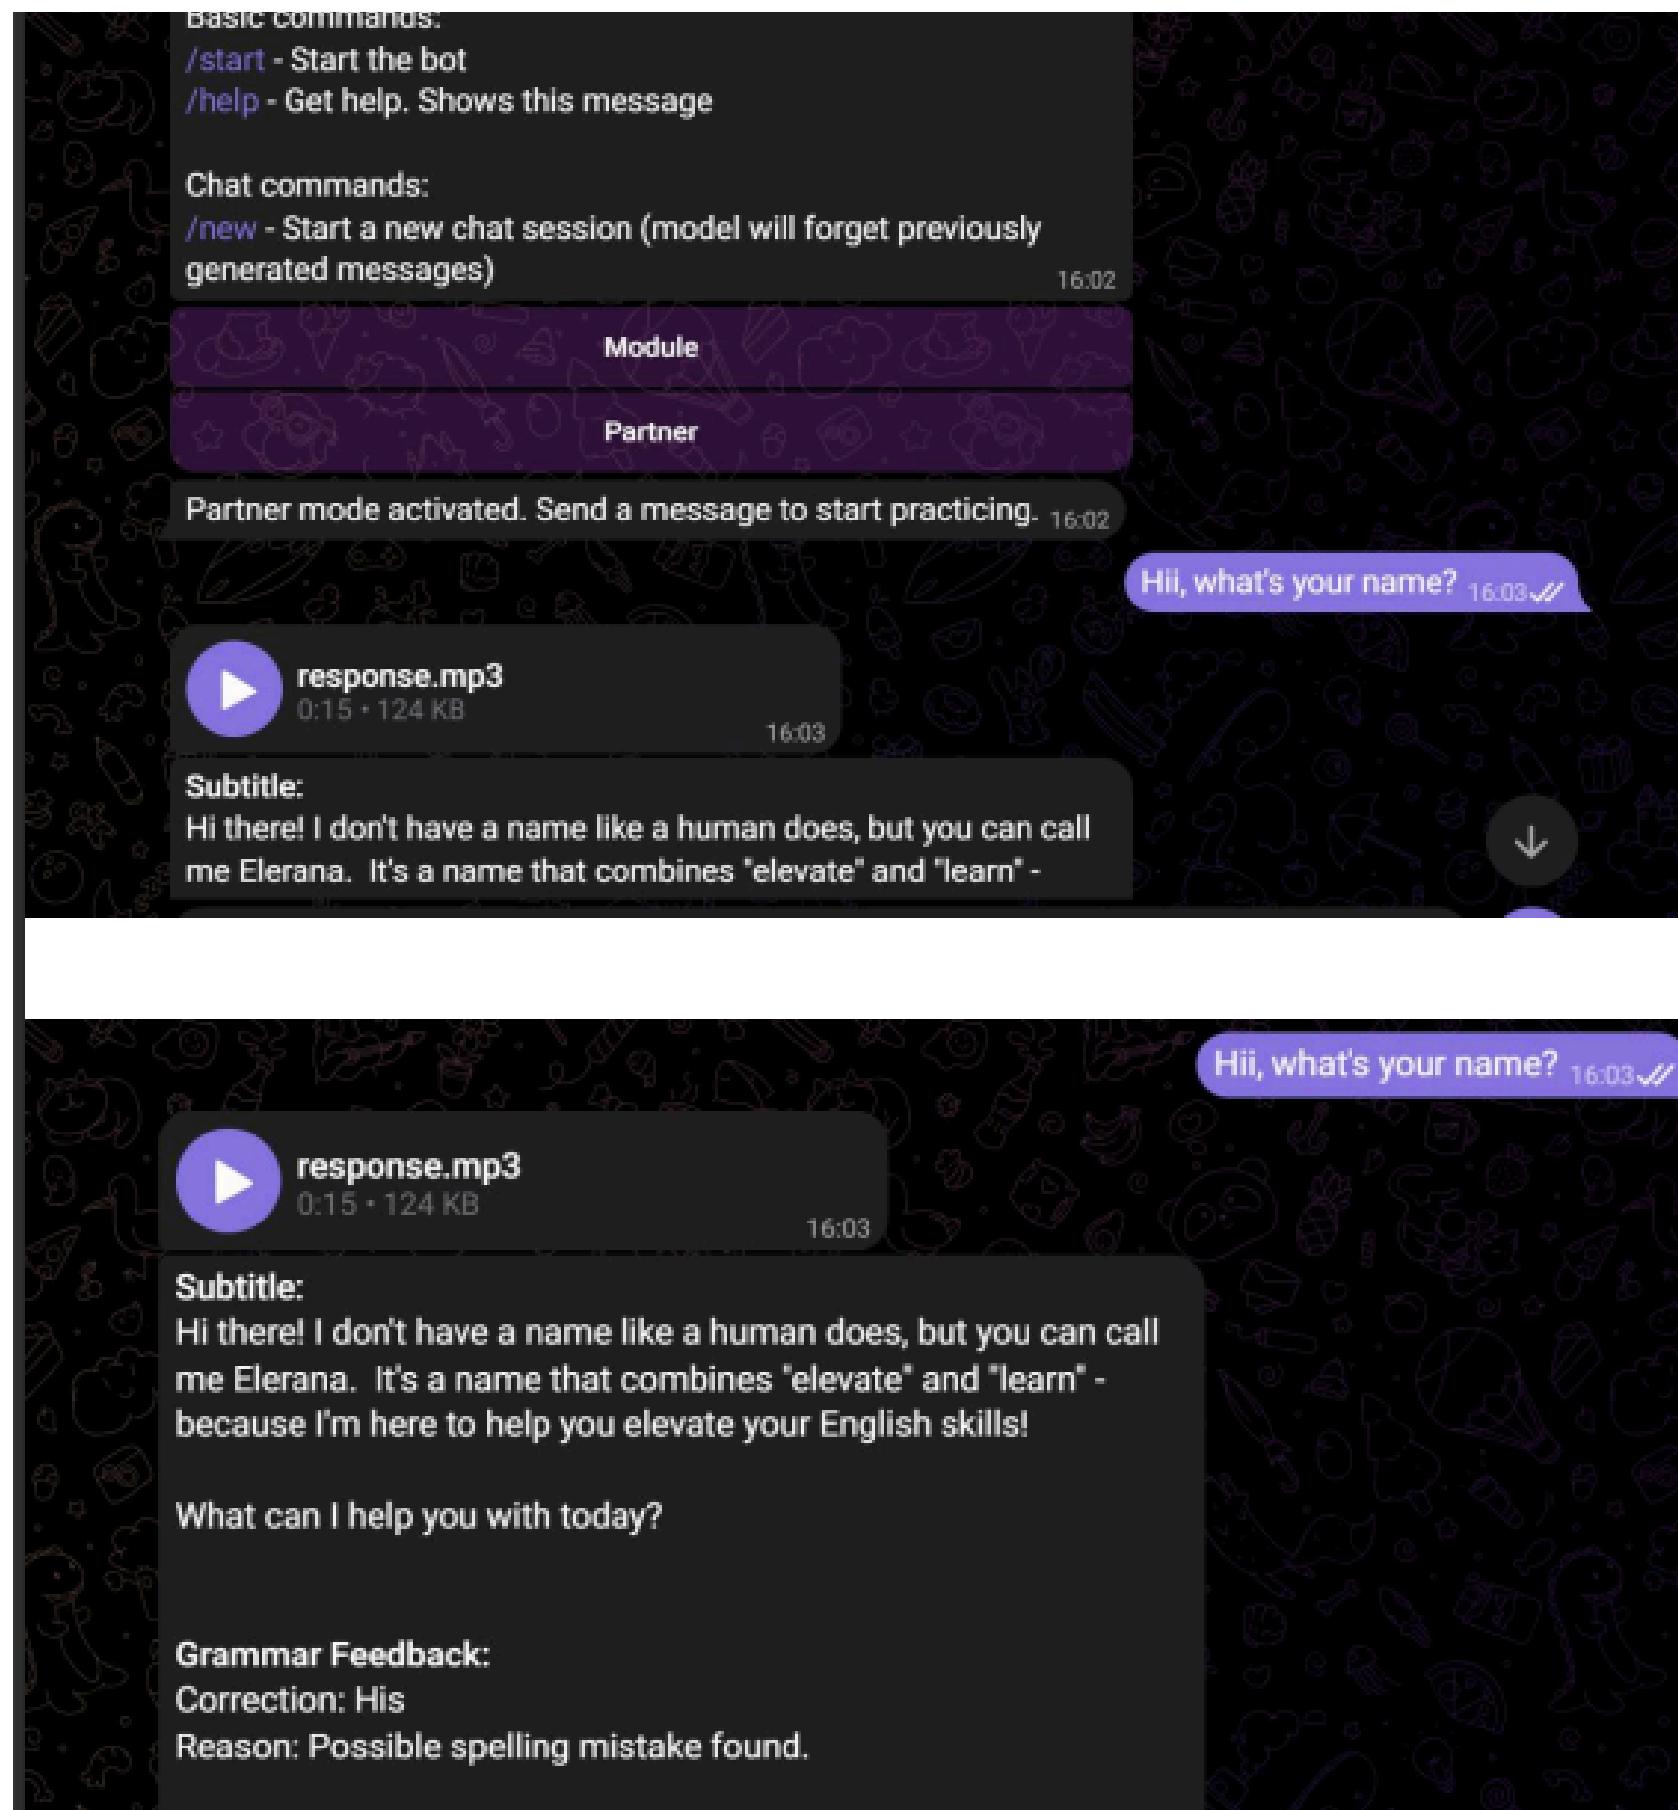

As an AI language model, I am not capable of forming personal relationships or friendships. I am designed to

DO you want be my friend?

Hide Feedback

Incorrect: DO you want be my friend?
Explanation: The verb “be” needs to be in the to-infinitive form.
Correct: DO you want to be my friend?

Type your message here... Send

ELERANA TELE BOT VERS

- SPEAKING PARTNER -

Elerana is a Telegram chatbot designed to serve as a speaking partner for English learners. It supports both text and audio interactions, allowing users to practice speaking and receive real-time grammar corrections. Leveraging advanced AI technology, Elerana provides natural and contextually relevant responses, creating a more human-like and interactive learning experience. The chatbot aims to enhance users' speaking skills and grammar understanding through realistic conversational practice.
